

Account Manager

February, 2020

This is an exciting opportunity to join a tech startup company based in Newmarket (www.wonde.com) that has raised £3m+ in funding to innovate Edtech (Education Technology).

We work with over 15,000 schools nationwide and with cutting edge technology to help improve outcomes for students and make the education sector a more awesome place.

Wonde allows companies to easily access school data. It's incredibly difficult, expensive and time consuming for them to access data from within a school... Wonde make the whole process simple and cost-effective!

...we also help students, teachers and parents access education software with our innovative magic badges and emoji logins!

Take a look through our website for more information <https://www.wonde.com>

The position

We are looking for an Account Manager to join our growing company of 30+ who will work alongside other Account Managers and the Business Development Team. The role will consist of managing existing market leading Edtech clients, onboarding new clients as they start using the Wonde technology, dealing with inbound sales leads and working alongside multiple teams to achieve group goals.

What else?

Expect to be rewarded handsomely here for your work, with not only an attractive salary, but other great benefits too, such as a new MacBook, cycle to work scheme and frequent social events such as company lunches. We're a tech start-up and have the culture to match! (Did someone say company Peleton bike, pool table and foosball?). Wear whatever you want to work, it's a relaxed environment and everyone really pulls together well as a team!

The company is within easy access of the A14, making it easily commutable from the surrounding areas.

****NO AGENCIES PLEASE****
