

Edval 10 Sync Integration Guide

August 2023

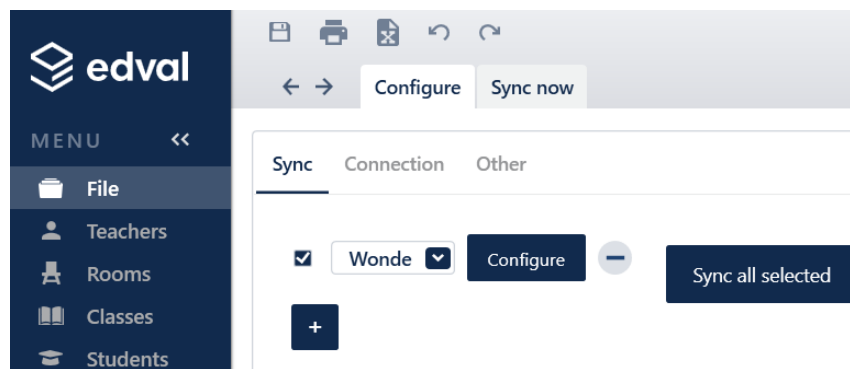

Syncing Edval classes to Wonde

Configuring Edval 10

Please note: This will require you to be on at least version of Edval version 10. We also recommend you make a backup copy of your timetable file (.etz file) before performing the sync.

If you are on a previous version of Edval, please update from the **Settings > Updates** screen.

1. Go to File > Synchronise > Configure.
2. Click the plus and select "Wonde" from the dropdown.

3. Go to the 'Connection' sub-tab. Input the below details:

- **URL:** <https://inbound-au.wonde.com/import/liss>
- **Username:** Wonde to supply
- **Password:** Wonde to supply
- **School Code:** Wonde to supply

The screenshot shows the 'edval' web application interface. On the left is a dark sidebar menu with the 'edval' logo and a 'MENU' section containing icons and labels for 'File', 'Teachers', 'Rooms', 'Classes', 'Students', 'Lines', 'Grid', 'Health Check', 'Reports', and 'COVID-19'. The main content area has a top navigation bar with 'Configure' and 'Sync now' buttons. Below this are tabs for 'Sync', 'Connection', and 'Other', with 'Connection' selected. The 'Connection' tab contains the following fields:

- URL:
- Username:
- Password:
- School code:
- Proxy: Provide proxy credentials

At the bottom of the form is a dark blue button labeled 'Test connection'.

Syncing in Edval 10

Basic Sync

Basic sync is used for general syncing. A Basic sync will:

- Publish Students
- Publish Teachers
- Publish Classes
- Publish Class Lists (memberships)

To perform a Basic sync:

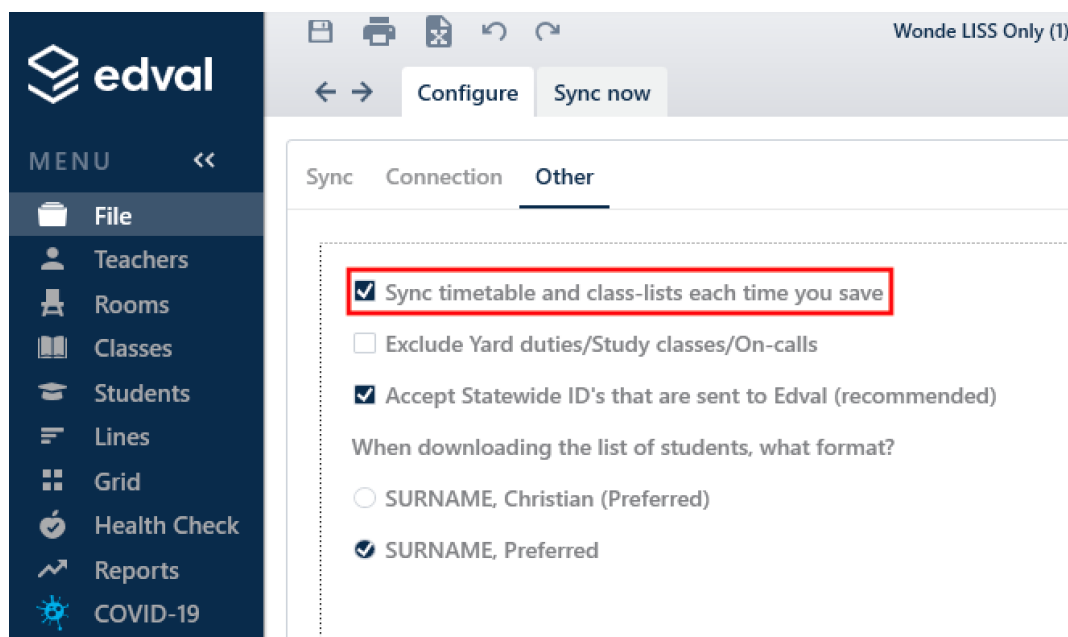

1. Go to File > Synchronise > Sync Now
2. Ensure "Wonde" is selected from the dropdown in the top-right corner
3. Go to the 'Basic' sub-tab
4. Select the dates you wish to synchronise your data in/from
5. Check the rotation is correct
6. Click 'Go!' to start the sync
7. Once the sync has completed please run it a second time for Wonde to match students and teachers to their respective classes

Please check the "Create support log file" option and provide the debug.txt (located in the same folder as your .etz file) to Wonde if you are having issues.

The screenshot shows the Edval web interface for configuring a Basic Sync. On the left is a dark blue sidebar menu with options: File, Teachers, Rooms, Classes, Students, Lines, Grid, Health Check, Reports, COVID-19, and an ADMIN section with Setup, Settings, and Help. The main content area has a top navigation bar with 'Configure' and 'Sync now' tabs, and a 'Filter' dropdown. Below this is a warning banner: "This sync can make changes to your data. Performing this sync will clear your undo history." The 'Basic' tab is selected, showing instructions: "Edval class lists and timetable will be published to Wonde along with duties and study classes. All class lists and timetable entries existing in Wonde in the date range below will be changed to match what is in Edval." The configuration includes a URL field (https://inbound-au.wonde.com/import/liss), a Username field, a Date range selector (5/02/2019 to 19/02/2019), a checked checkbox for "Create support log file", and an "Edval Rotation(s)" dropdown menu set to "Rot 1". At the bottom are "Help" and "Go!" buttons.

Setting up the Edval Sync to Run Automatically:

1. Ensure that the Wonde Sync is selected from the dropdown and Go to *File > Synchronise > Configure > Other*
2. Enable the checkbox option '**Sync timetable and class-lists each time you save**' as pictured below;

3. With this option enabled Edval will perform a sync to Wonde whenever changes are made, removing the need to manually run the sync

Please notify Wonde's Integrations team at ausintegrations@wonde.com for us to test that the sync has been successful & confirm for you that the connection is good to go.
