Troubleshooting

If you are having issues. Please check the “Create support log file” option and provide the debug.txt (located in the same folder as your .etz file) to Wonde.

Setting up the Edval Sync to Run Automatically:

1. Ensure that the Wonde Sync is selected from the dropdown and Go to *File > Synchronise > Configure > Other*
2. Enable the checkbox option ‘**Sync timetable and class-lists each time you save**’ as pictured below;

3. With this option enabled Edval will perform a sync to Wonde whenever changes are saved, removing the need to manually run the sync

Please notify Wonde's Integrations team at support@wonde.com for us to test that the sync has been successful & confirm for you that the connection is good to go.
