Veracross Integration Guide

A third party application used by your school uses Wonde to access school data from a number of MIS providers such as Veracross. As your school is yet to have the integration setup with Wonde the following steps need to be completed.
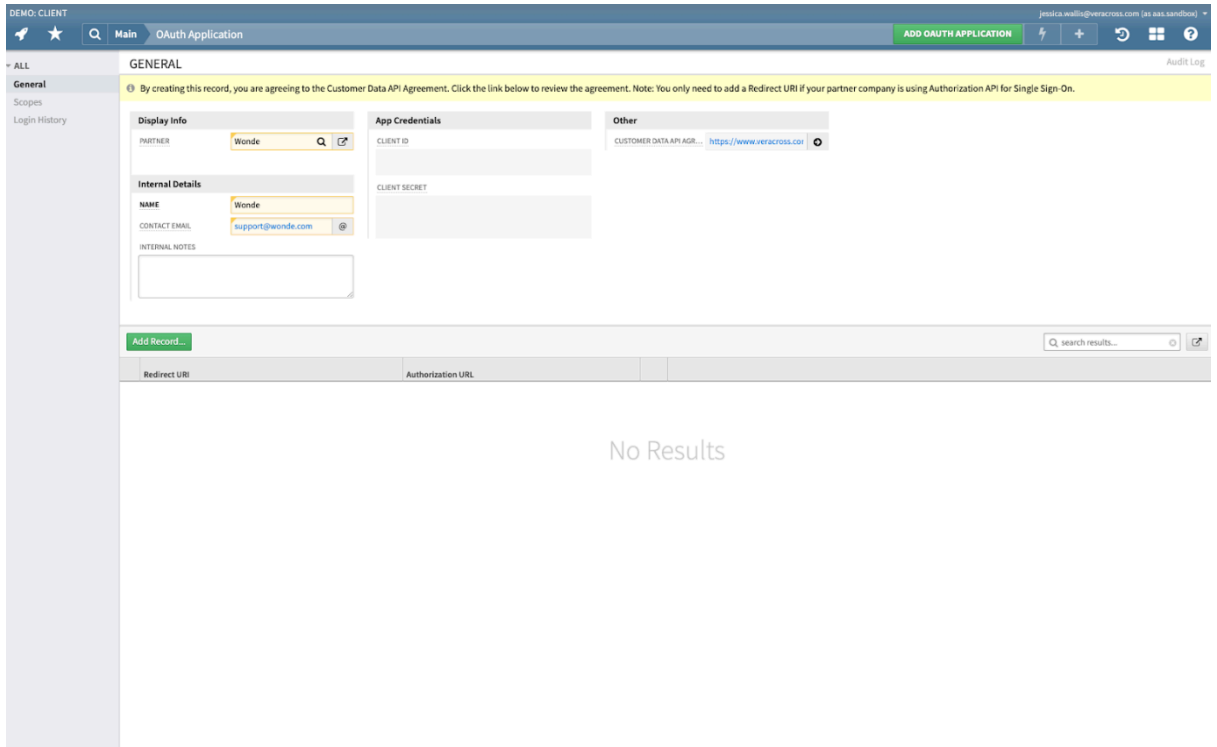

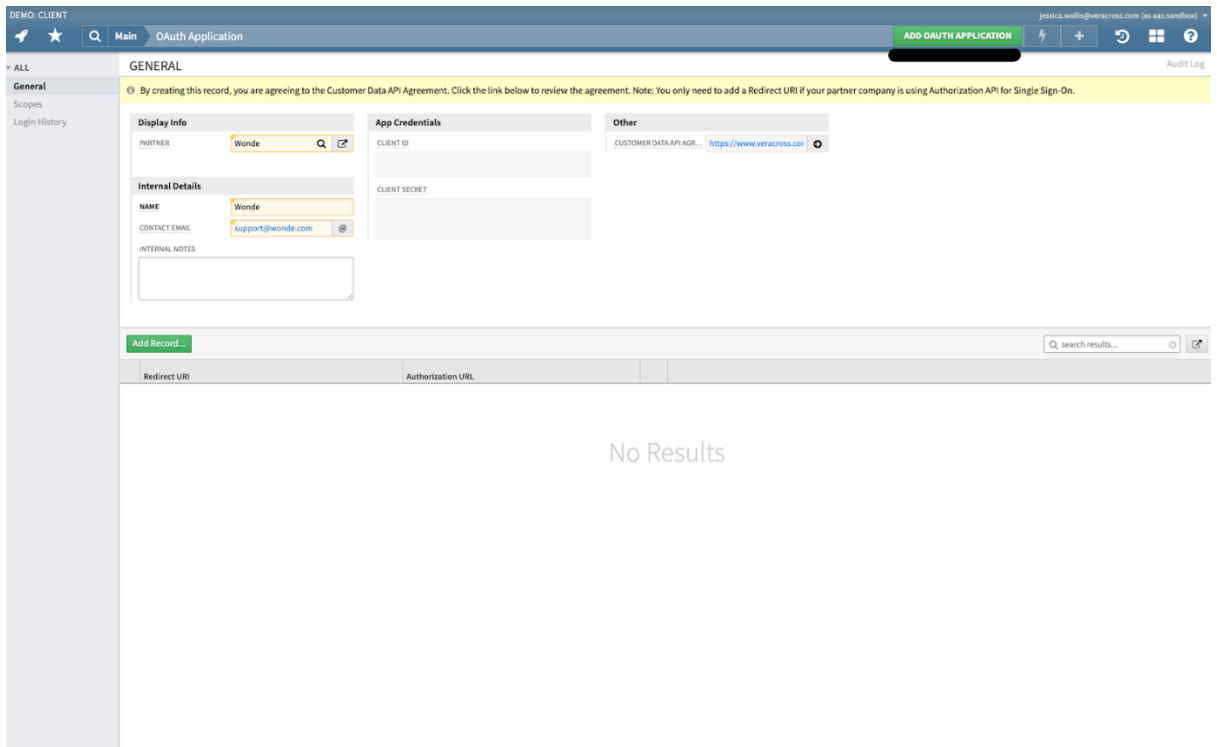

1. Login to the Veracross Partner Portal

2. Beginning from the **Identity & Access Management** homepage, find "Wonde" and click the "Start Integration".

   Please note: the version required to complete the integration is Version 3.

3. On the next screen, you will see "Display Info", "Internal Details" and "App Credentials" section.

4. Press the green "Add OAUTH Application" button at the top of the screen, this will then generate a Client ID and Client Secret.

5. Click on the "Scopes" heading to the left of the screen.

6. On the "Available OAuth Scopes" headings to select from, please ensure that the following scopes are selected and once done to press "Update" to update these scopes:

academics.enrollments:list
academics.enrollments:read
classes:list
classes:read
contact_info:list
contact_info:read
courses:list
courses:read
households:read
master_attendance:list
master_attendance:read
parents:list
parents:read
relationships:list
staff_faculty:list
staff_faculty:read
students:list
students:read
admission.applicants:list

7. Once the above steps have been completed, please fill out the [Google form](#) with the Client ID, Client Secret, School Route, School Name and contact details.

   If you have any questions, contact our support team by calling 1800 064 506 (Australia), 04 488 1558 (New Zealand), or email support@wonde.com.

8. The Wonde team will then complete the process and confirm the connection is working successfully.
